3.127 (b) 
FACILITIES, OUTDOOR.
Shelter from inclement weather. Natural or artificial shelter appropriate to the local climatic conditions for the species concerned shall be provided for all animals kept outdoors to afford them protection and to prevent discomfort to such animals.

***The shelter in the "petting pen" is too small to accommodate the 3 llamas, 5 goats, and 4 donkeys at one time. Shelter from the elements should be available at all times and constructed so as to accommodate all animals in the pen at one time. Additional shelter should be constructed or the animal density reduced in order to ensure that all animals in the "petting pen" have adequate shelter from the elements during inclement weather. Correct by February 6, 2004.
