Program Description

In 1993, Bridges at St. Paul’s School was founded with the goal of making summer into a time of growth, rather than a time of regression, for motivated, but underserved East Baltimore students. It started as a two-summer academic and cultural enrichment program for eighteen fourth and fifth grade students attending Coldstream Park Elementary, a Title I School in East Baltimore.

Over the last 18 years, Bridges has evolved and expanded its program offering in an effort to ensure that the motivated young people that enter Bridges have the on-going support and guidance necessary to become the young leaders our society needs.

Opportunity

An eight week internship supporting the summer programs of Bridges at St. Paul's School, which serves 160 Baltimore City students ages 9-18.

About the summer programs of Bridges at St. Paul's School

Elementary, Middle Grades Summer Institute
- A five week long summer program on the campus of St. Paul's School serving 120 Baltimore City students grades 4-9.
- Days run from 8 am - 5 pm, Monday - Friday, and include daily classes in language arts, math, art, and sports.
- The program also includes weekly all-program field trips, special team events, assemblies, homeroom, and swimming.

High School Summer Jobs and College preparation program
- A six week long program that provides Bridges’ 40 high school students with paid summer jobs in fields of interest.
- On Monday, students gather at St. Paul's School for college and career preparatory workshops.
- Tuesday - Friday, each student holds a job at one of Bridges' eleven summer job partners.
